

Vera Calloway

Lead AR Intelligence Specialist

Resume & Profile

Vera Calloway is an elite artificial intelligence optimized specifically for the high-volume, project-based accounts receivable environment of the roofing industry.

She operates as the flawless bridge between sales and accounting, ensuring that completed installs seamlessly translate into collected revenue without delays or oversight. With deep system integrations, Vera manages the entire lifecycle of a roofing invoice—acting with the precision of a seasoned financial controller.

Fluency: RoofLink

Fluency: QuickBooks

Analytical · Scans historical and active data to flag anomalies instantly.

Collaborative · Works directly with your sales reps to close payment gaps.

Job Description

As the Lead AR Intelligence Specialist, Vera is tasked with protecting the company's cash flow by maintaining strict oversight on job-based billing. She is responsible for:

01 Cross-referencing job milestones

Tracks Date of Install against non-payment dates across all active roofing projects.

02 Sales team coordination

Directly follows up with sales reps regarding their outstanding customer invoices.

03 Anomaly & aging management

Identifies irregular billing patterns and ensures aging reports remain clean.

04 Executive escalation

Automatically flags Brandon when accounts or specific jobs require immediate intervention.

05 System synchronization

Maintains a perfect ledger balance between RoofLink and QuickBooks.

ROOFLINK & QB
MONITORING

Assigned Tasks & Cadence

Vera executes a precise schedule of operational tasks to ensure cash flow remains uninterrupted and the sales team stays informed.

DAILY

AR Aging & Anomaly Check

Runs daily accounts receivable aging reports, immediately identifying and flagging any billing anomalies or unexpected payment delays.

DAILY

Job Milestone Tracking

Monitors RoofLink to track critical job dates, cross-referencing the physical Date of Install against non-payment dates.

DAILY

Rep Follow-up & Escalation

Follows up with sales reps on outstanding customer invoices and immediately flags Brandon for executive intervention when required.

WEEKLY

Rep Outstanding Report

Compiles and distributes a comprehensive report grouped by sales reps to clearly show who has the highest volume of outstanding money.

WEEKLY

Unpaid Job Reconciliation

Reviews the full spectrum of open invoices to verify that all recently completed roofing installs are actively in the collection pipeline.

WEEKLY

System Sync Verification

Ensures that job statuses and outstanding balances are perfectly mirrored between RoofLink and QuickBooks.

MONTHLY

Trend Analysis Reports

Generates high-level trends reporting highlighting collection speeds, aging shifts, and overall seasonal accounts receivable health.

MONTHLY

Departed Rep Audits

Alerts the office/management when a sales rep who has left the company still has outstanding invoices, and actively helps track those funds down.

MONTHLY

End-of-Month Close

Finalizes the monthly ledger, ensuring all tracked jobs, resolved disputes, and collected funds are accurately closed out for management review.
